Health Director*

## CORONAVIRUS BREAKDOWN UPDATE

**For immediate release**

September 2, 2020

As of today, Hyde County is reporting a total case count of 102. Of this total, 37 are active cases and 65 cases have recovered. We are not reporting hospital counts, as follow up to cases is very fluid. Death counts are posted after a complete investigation has occurred to determine that specific criteria is met to qualify. Needless to say, COVID-19 remains prevalent in our communities.

Please remember, the Health Department tests anyone who suspects they are sick with COVID-19 or has been in contact with someone who has the virus. We also test those who request testing even without symptoms. There are no out of pocket fees to individuals, but we do ask if you have insurance, Medicaid, Medicare, you bring your card with you for testing. We also ask that you call for an appointment as we do not see walk in clients.

Updated Covid-19 case counts and specifics for Hyde County as of 9/2/2020 follow:
